

PATRAN[®] solo

BRAND SLIDE SHEET | INDIVIDUALLY WRAPPED

PATRANsolo Single Patient Use Slide Sheet

Jamar Health Products, Inc., produces the largest variety of single-patient, multiple-use slide sheets. We are the leader in this category of safe patient handling devices.

Safe patient handling

PATRANsolo reduces caregiver injuries, provides patient comfort, reduces skin shear and eliminates cross infection. It is used for lateral transfer, repositioning, turning and many other patient-handling tasks. Log-rolling the patient isn't required when using PATRAN. Using PATRAN products has cut workers' compensation costs related to moving patients by more than 75 percent. PATRAN products are a good start in any safe patient handling program.

Infection control

As a single-patient device, PATRANsolo prevents cross-infection between patients. It is also an ideal low-cost safe patient handling device for isolation patients.

No weight limit

There is no limit to the weight of a patient who can be moved with PATRANsolo. If the patient is wider than the PATRANsolo, it may be necessary to use two slide sheets.

Nondirectional

PATRANsolo is slippery and moves in all directions. Use it to assist with more than 20 different patient handling tasks.

Number of uses

PATRANsolo can be used about 30 times with the same patient.

Convenient

PATRANsolo is individually folded and wrapped. It can be carried in a caregiver's uniform pocket, placed in a room kit, or put in a patient's drawer, under the mattress or on a cart. In addition, PATRAN wall dispensers are available. Having PATRANsolo close at hand is critical to compliance.

Training

Training is important. We offer written and video instructions.

Warranty

Jamar Health Products, Inc., will replace any defective PATRAN products for a period of two years from the date of purchase. The warranty includes freight within the USA.

PRODUCT #/NAME	SIZE (INCHES)	COLOR	PACKAGING/REMARKS
