## SLIDE TO SAFETY

### PATRANsolo Single Patient Use Slide Sheet

*Jamar Health Products, Inc., produces the largest variety of single-patient, multiple-use slide sheets. We are the leader in this category of safe patient handling devices.*

#### Safe patient handling

PATRANsolo reduces caregiver injuries, provides patient comfort, reduces skin shear and eliminates cross infection. It is used for lateral transfer, repositioning, turning and many other patient-handling tasks. Log-rolling the patient isn't required when using PATRAN. Using PATRAN products has cut workers' compensation costs related to moving patients by more than 75 percent. PATRAN products are a good start in any safe patient handling program.

#### Infection control

As a single-patient device, PATRANsolo prevents cross-infection between patients. It is also an ideal low-cost safe patient handling device for isolation patients.

#### No weight limit

There is no limit to the weight of a patient who can be moved with PATRANsolo. If the patient is wider than the PATRANsolo, it may be necessary to use two slide sheets.

#### Nondirectional

PATRANsolo is slippery and moves in all directions. Use it to assist with more than 20 different patient handling tasks.

#### Number of uses

PATRANsolo can be used about 30 times with the same patient.

#### Convenient

PATRANsolo is individually folded and wrapped. It can be carried in a caregiver's uniform pocket, placed in a room kit, or put in a patient's drawer, under the mattress or on a cart. In addition, PATRAN wall dispensers are available. Having PATRANsolo close at hand is critical to compliance.

#### Training

Training is important. We offer written and video instructions.

#### Warranty

Jamar Health Products, Inc., will replace any defective PATRAN products for a period of two years from the date of purchase. The warranty includes freight within the USA.

PRODUCT #/NAME	SIZE (INCHES)	COLOR	PACKAGING/REMARKS
